## Bastien

### *Pery*

b. 1993, Biarritz, France

Between intimate memories and vague reminiscences, Bastien Pery explores a multitude of fragments of life. His process involves a graphical representation, a pictorial reinterpretation of the vivid emotions of moments from the past, sometimes fleeting. Bastien uses family photographs, always imbued with a certain nostalgia, to which he adds filters, enhances color saturation, plays with the brightness of lights, and the depth of shadows. He uses an algorithm to allow for a subtly diffused, almost blurry rendering, where the past becomes nothing more than a distant mirage.
